FAO: Oliver Hale

Sample: **BUGGY POD SMORPH**

Laboratory No: S0904121/SJG/AM1 Reference No: ----

Amendment to report S0904121/SJG dated 12th June 2009.

Order No: ---- Date received: 02/06/2009

Description: A side seat designed to be attached to the right hand side of a pushchair constructed from circular and rectangular section metal tubing with plastic fittings, a single plastic wheel with solid tyre is attached by a quick release mechanism. The seat has a five point harness and "D Rings", the back rest folds forward which automatically folds the support for the wheel, the seat the folds upwards so the pushchair can pass through a single door.

Test(s) conducted: BS EN 1888 : 2003 Wheeled Child Conveyances including amendments A1; A2 and A3 August 2005 (Clauses: 9: Handle strength, 17: Irregular surface test and 18: Dynamic strength only). All testing carried out using 20kg test mass instead of the standard 15kg mass.

Results: See report details.

Conclusion: The sample complied with the above mentioned test.
